About KLAS

KLAS is a data-driven company on a mission to improve the world's healthcare by enabling provider and payer voices to be heard and counted. Working with thousands of healthcare professionals, KLAS collects insights on software, services and medical equipment to deliver reports, trending data and statistical overviews. KLAS data is accurate, honest and impartial. To learn more about KLAS and the insights we provide, visit www.KLASresearch.com

LANCASTER, Pa. (Feb. 1, 2018) - Thornberry Ltd.'s homecare and hospice EMR software, NDoc®, received the Best in KLAS award for the Homecare segment for a record-breaking fifth year in a row.

For 2018, Thornberry was awarded a score of 93.1, surpassing all other vendors in the Homecare EMR segment by 9 points. The Best in KLAS designation is reserved for vendor solutions that lead the software and services market segments with the broadest operational and clinical impact on healthcare organizations.

"We are beyond excited to be named Best in KLAS this year," said Thornberry President and CEO Tom Peth. "We are thankful to our customers for their loyal partnership that allowed us to receive this recognition, and to our team for all their hard work that enables us to achieve this success."

For the past 20 years, Thornberry has led the way in innovation in the home health and hospice EMR industry with its cutting-edge NDoc® software solution.

KLAS Research, a widely respected healthcare research firm, determines the Best in KLAS ranking through extensive surveys and interviews with current and previous customers of EMR vendors, gathering feedback on the efficiency and quality of health IT products. KLAS methodology ranks vendors according to their ability to meet certain current and future expectations. The firm also evaluates vendors based on their ethics, transparency and commitment to customer service.

"Best in KLAS is more than a ranking. It is a recognition of vendors committed to delivering superior solutions," said Adam Gale, president of KLAS. "It gives voice to thousands of providers who are demanding better performance, usability and interoperability in healthcare technology."

Thornberry will be recognized for its record-breaking five years atop its market segment at the annual "Best in KLAS Award Ceremony" at the Rio Resort in Las Vegas on Monday, March 5 from 7-9 p.m.
